

A Democratic Republic of Congo Journey

Kabaré and Ngweshe chiefdoms in Kabaré and Walungu territories of the South Kivu region

- Kabaré
- Ngweshe chiefdoms
- Walungu territories

TRI is supported by IUCN, FAO, and UNEP, and funded by the Global Environment Facility (GEF).

1 Project landscapes

South Kivu is one of the most densely populated, poorest provinces.

Overgrazing, unsustainable timber and fuelwood harvesting.

Forest and land degradation due to population pressures and poor land management.

80% live below the poverty line.

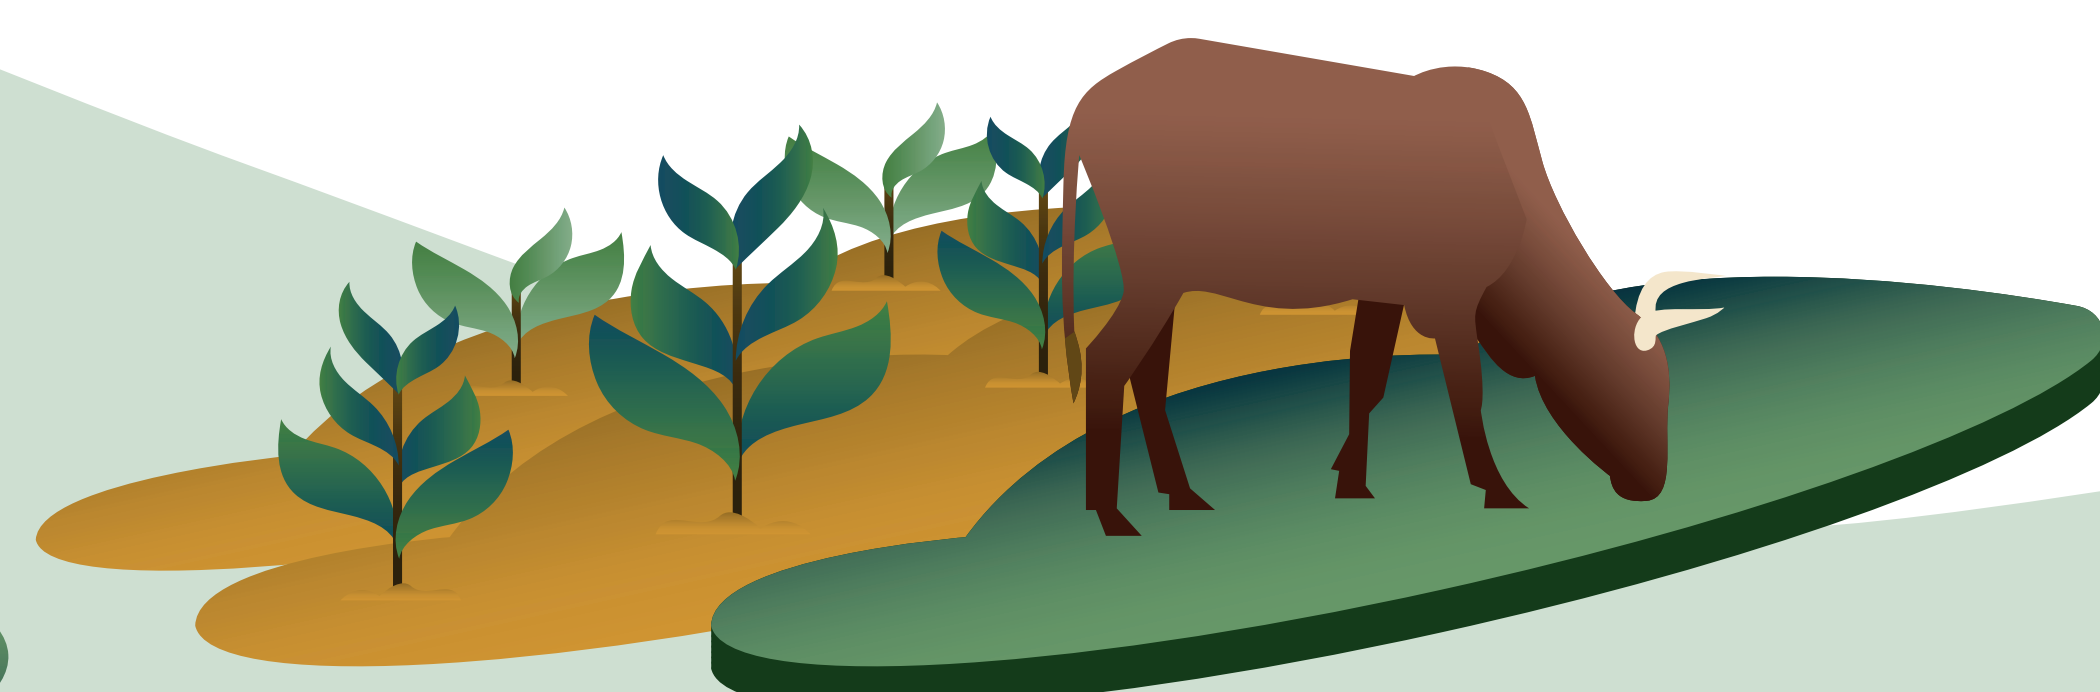

One of the last refuge for endangered eastern lowland gorillas.

3 The TRI Strategy

Action plan for the South Kivu province integrating FLR and results from Restoration Opportunities Assessment Methodology (ROAM).

Community mobilisation through Dimitra Clubs and APFS to expand education, awareness and implementation support for FLR.

Co-finance and implement 65 micro-restoration projects.

Select restoration species guided by traditional knowledge.

2 TRI Project Overview

Promote sustainable land management practices.

Enhance agroforestry, reforestation and erosion control.

Support sustainable income diversification.

South Kivu provincial-level for forest landscape restoration (FLR).

4 Achievements (as of June 2024)

2,163 ha of land under restoration

3,145 ha of land under improved management

5 policies adopted to support forest and landscape restoration

57,086 direct beneficiaries

8 knowledge products to support forest and landscape restoration

“ We work for the development of our communities through the planting and installation of nurseries for the production of seedlings of forest and agroforestry species. One of our objectives through this program is the empowerment of rural women. ”

Mwamiriza Angeline, TRI beneficiary in Kashanja village.
